

WACKER BPU3050 SPECIFICATIONS

Technical specifications

Operating data

Operating weight	366 lb
Centrifugal force	6,744 lbf
Base plate size	19.7 x 27.7 in
Base plate thickness	0.4 in
Height (without guide handle)	29.4 in
Operating width	19.7 in
Frequency	90 Hz
Advance travel max. (depending on soil & environmental factors)	68.9 ft/min
Surface capacity max. (depending on soil & environmental factors)	6,781 ft ² /h

Engine / Motor

Engine / Motor type	Air-cooled single-cylinder, four-cycle gasoline engine
Engine / Motor manufacturer	Honda
Engine / Motor	GX 270
Displacement	16.5 in ³
Engine performance max. (DIN ISO 3046)	6.6 kW
at rpm	3,600 rpm
Fuel consumption	0.29 US gal/h
Fuel tank capacity	1.3 US gal
Power transmission	From drive motor via centrifugal clutch and V-belt direct to exciter.
