

MODEL E9

9kW 240V Electric Heater

The Patron E9 is a top seller which exceeds expectations on a regular basis. It can be used in the most demanding of environments and has proven its abilities in hundreds of applications. The E9 is a 240V unit and draws either 25 or 37.5 amps. This means it will run flawlessly off a stove receptacle. Make sure your receptacle is a NEMA 14-50P configuration, to ensure compatibility with our plug. The E9 produces a ton of heat, and disperses it in large areas with its 350 CFM fan.

FEATURES

- For heating, drying, and ventilating
- Integrated ambient thermostat from 32°F – 100°F
- Overheat protection at 104°F
- Durable steel casing with powder coating
- Stainless jacketed heating coils
- Fast, high temperature rise with uni-directional fan
- User-friendly and proven reliability
- UL / cUL Approved
- 2 Year Limited Warranty
