

MODEL E1.5

1.5kW 120V Electric Heater

The E1.5 sets the standard for 120V electric space heaters. Built to run for 10 years without a break, it features a 116 CFM fan motor which distributes warm air throughout the room in a way you never thought possible. Instead of using it to warm a small area/personal space like other common space heaters, the E1.5 is meant to raise the temperature of an entire room by circulating the warm air in a much larger area.

FEATURES

- For heating, drying, and ventilating
- Integrated ambient thermostat from 32°F – 100°F
- Overheat protection at 104°F
- Durable steel casing with powder coating
- Stainless jacketed heating coils
- Fast, high temperature rise with uni-directional fan
- User-friendly and proven reliability
- UL / cUL Approved
- 2 Year Limited Warranty

SPECIFICATIONS

Heat Output	5,100 BTU/Hr
Wattage	1,500W
Voltage	120V
Amperage	12.5 A
Airflow	116 CFM
Actual Weight	13.7 LBS
Power Cord	10-ft (12 AWG)
Dimensions	11" x 12" x 8"
Plug	NEMA 5-15P
Noise Level	47 dB(A) 1m
Shipping Weight	15 LBS
